

### **Patient Protection Model Disclosure**

When applicable, it is important that individuals enrolled in a plan or health insurance coverage know of their rights to (1) choose a primary care provider or a pediatrician when a plan or issuer requires designation of a primary care physician; or (2) obtain obstetrical or gynecological care without prior authorization.

Accordingly, the interim final regulations regarding patient protections under section 2719A of the Affordable Care Act require plans and issuers to provide notice to participants of these rights when applicable.

The notice must be provided whenever the plan or issuer provides a participant with a summary plan description or other similar description of benefits under the plan or health insurance coverage.

This notice must be provided no later than the first day of the first plan year beginning on or after September 23, 2010.
