## Where Can You Use Paytient?

### AT THE DOCTOR

Whether you're seeing a family doctor, a specialist, a therapist, an internist, or a surgeon, you can use your Paytient card to pay your copay or coinsurance at the time of treatment<sup>2</sup>. Your Paytient card can also cover any bills that you receive after your visit!

### AT THE PHARMACY

There are many medical costs that don't occur at the doctor's office, such as prescriptions and drugstore essentials like ibuprofen and bandages. You can also use your Paytient card to purchase these!<sup>2</sup>

### AT THE DENTIST

Whether it's an unexpected root canal or a routine filling, insurance rarely covers the entirety of dental care. Instead of delaying treatment or struggling through discomfort, you can use your Paytient card to split your care costs<sup>2</sup> into an affordable payment plan.

### AT THE EYE DOCTOR

Need new glasses or contacts? Ready to get LASIK? Just setting up your annual eye exam? Paytient can help<sup>2</sup>. Preventive vision care supports your whole-body health. Let Paytient connect you with the care you and your eyes need.

### AT THE VET

Your Paytient card can be used to cover care for yourself or any of your dependents — including your furry friends! Use your card for everything from flea and tick medications to nail trims to routine wellness exams<sup>2</sup>.

<sup>1</sup> Subject to approval

<sup>2</sup> The Paytient card works with providers in certain approved merchant categories. The provider self-selects their merchant category, and in some cases, a provider might not be categorized as expected.

<sup>3</sup> We are required to confirm that you are able to afford your Paytient monthly minimum payments, and we do this by comparing your income to your expenses during your application.

The Paytient Visa Credit Card is issued by Commerce Bank, Member FDIC.
