

The savings power of Price Edge programs

To help lower medication costs, your pharmacy plan includes Optum Rx Price Edge and Price Edge Plus.

Here is how Price Edge programs work for you:

When you fill a prescription for generic medication at a network pharmacy, the Price Edge engine will look for competitive savings – even if the medication is not covered by your plan.

For another way to save, Price Edge Plus will look for savings on Optum Home Delivery prescriptions. If you choose to use Optum Home Delivery, you are already set up. If not, you can transfer prescriptions to Optum Home Delivery by logging into the Optum Rx app or visiting **optumrx.com**. The choice is yours.

If savings are found, you will automatically receive the lower price. It's that easy.

To estimate costs before filling your prescription, download the Optum Rx app or sign in at **optumrx.com**. Then use the drug pricing tool to calculate cost.

Use our drug pricing tool online or on the Optum Rx app to view Price Edge Plus pricing and your cost breakdown.

Atenolol Oral Tablet 50 MG

Drug information

Price Edge Plus cost breakdown

An exclusive benefit available only at Optum Home Delivery.

Your cost breakdown

For a 3 month supply

Drug price	\$0.71
10% markup	\$0.08
