GENOMIC LIFE

Know more today. Live better tomorrow.

Boost your existing health benefits with the membership that helps you:

- Take steps to **dodge serious conditions** like cancer and heart disease
- **Pinpoint medications** more likely to work for you, with fewer side effects
- **Navigate the health system** with real expert support

The 3-in-1 program helps you live a longer, fuller life:

1 **DNA screenings:** *Know your hidden health risks*

- **Genetic Health Screen:** Uncover your unique risks for cancer, heart disease, and more—the earlier you know, the more your doctor can do
- **Pharmacogenomic Testing:** Help your doctor pick the right medications
- **Carrier Screening:** Inform family planning decisions

2 **Clear next steps:** *Take steps to lower your risks*

- *EXPANDED* Health navigators help you take action to lower your unique risks
- *NEW* Access additional screening that can help find 50+ cancers at the earliest, most treatable stages.*
  More at: genomiclife.com/screenings

3 **1-on-1 navigation:** *Never face a big diagnosis alone*

- If you're diagnosed with a serious illness like cancer, get help understanding your options, overcoming barriers, and more
- Support if you're a cancer survivor or caregiver

"What initially appealed to me about Genomic Life was the genetic test. But I found it was much deeper than that. The support has been phenomenal." —John
